Mr. Tim Tobin

April 12, 2002

Dear Tim

It is my pleasure to provide you with a letter of recommendation or just for reference for the work you have done for our company. Caterpillar Incorporated has purchased many Mobile Workshops, Wash Water Recycling units, Habitat units and in plant office modules from you over the years. The first 4 Mobile Workshops purchased from your company in 1993 are still in operation in Siberia to a very large customer of Caterpillar. These units were shipped on time, on budget and to the fullest satisfaction to our customer, as well as the rest of the units that you have provided to us. It is the satisfaction of our customers that has allowed me to bid on other projects and receive additional orders for your products. We have shipped additional units to China, Mongolia, Uzbekistan, South America along with the many units sold here in the states. We have never had to go back to fix anything on any of your units. Your company is my only supplier for these workshops and as I write this note, additional projects are being looked at for future sales opportunities. I would be more than happy to talk to any person regarding your quality and products. Please let me know if anything further is needed to assist you.

Yours sincerely,

A handwritten signature in blue ink that reads "Kim Thatcher". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
