The Eagle Companies
2010 N. E. Perry Street
Peoria, IL. 61603
Mr. Tim Tobin

May 8, 2002

Dear Tim,

It is my pleasure to recommend your company "Eagle Companies" to anyone. My experience in dealing with you and your company was excellent. You provided us with a superior quality product at a price that beat the competition and delivered on time.

I had the good fortune as the manager of this project to visit your facilities during the construction of the (20) twenty containerized modular office facilities units we purchased. Your methods of construction, and materials used were top quality. Your staff was totally professional. No corners were cut by you in turning out our order. The delivered units more than met our expectations. We were able to complete our last reactor refueling and plant overhauls in a 25 day outage, thanks in no small way to being able to house and coordinate large numbers of vendors and contractors in the units we purchased from you. We are now getting ready to use these units again for the fall 2002 refueling of Indian Point Unit 2. These containerized facilities have performed flawlessly with no need for repair or service. We were able to place (12) twelve units in the same space that was formally occupied by only (5) five rental trailers. This high density occupancy has allowed for better communications and coordination of contractor activities. I received nothing but positive feedback from the various contractors that used these facilities. They were impressed with the quality and versatility of the units. I would be more than happy to talk to anyone regarding your products and their quality.

Sincerely,

A handwritten signature in black ink, appearing to read "Henry V MacKay".
